

3M 2100192

Details

- 4 ft. (1.2m) pass-thru type tie-off adaptor
- Durable 3/8" (9.5mm) 7x19 galvanized steel cable construction
- High strength steel O-ring hardware
- Compact and lightweight design

Our anchor straps are built from top quality materials guaranteeing high strength and durability to stand up to the toughest environments. Anchorage connectors are the unsung heroes of most fall protection systems, often overlooked but critical components because they securely attach your system to the anchorage. Your choice of anchor depends on the type of work being done. Anchorages are sold by what they connect to (general/all purpose, steel, concrete, roof or specialty), whether they are fixed or mobile, and whether they are permanent or portable. They all must provide a secure point of attachment for a complete personal fall arrest system

Specifications

Attachment Type	Pass-Thru/Choker
Case Quantity	1
Color	Silver
Install Type	Reusable
iSafe Equipped	No
Length	4 Feet
Product Type	Cable Tie-Off Adaptor
Recommended Industry	Construction, General Industrial, Mining, Oil & Gas
Standards/Approvals	ANSI Z359.1, OSHA 1910.66, OSHA 1926.502
Weight	2.5 lb.
Weight Capacity	310 lbs. (141 kg)
