

# PEAKFIT®

## Finally, You and Your Mask Are a Perfect Match.

Revolutionary in design. NIOSH approved. **PeakFit®** is an N95 air-purifying respirator specifically engineered for user comfort as well as safety. The superior fit of the **PeakFit®** results in dramatically enhanced user comfort – improving compliance and reducing your safety expenses.

**PeakFit's** large, contoured design helps make breathing easier. The molded nose bridge fits most faces, with no metal nosepiece to pinch. Plus, the latex-free, cloth head strap is cooler and more comfortable than rubber alternatives.

Available in three versions – **PeakFit®**, **PeakFit® OV**, and **PeakFit® AG** – providing protection against a variety of contaminants. Contact your safety professional for the **PeakFit®** mask that's right for you.

**Gateway**  
S A F E T Y

**Integrated, latex-free head strap is more durable than conventional stapled versions. Adjustable for a custom fit.**

Molded, metal-free nose bridge – no pinching required.

Pre-shaped nose cushion and inner lining provides a soft, safe, and secure fit.

Large, contoured design ensures easier breathing, which encourages compliance.

**These respirators are approved only in the following configurations:**

TC-	Protection <sup>1</sup>	Respirators					Cautions and Limitations <sup>2</sup>
		80101	80102V	80103C	80104CV	80105A	
84A-4007	N95	X		X		X	ABCJMNO P
84A-4008	N95		X		X		ABCJMNO P

**1 Protection**  
N-95 Particulate filter (95% filter efficiency level) effective against particulate aerosols free of oil; time use restrictions may apply.

**2 Cautions and Limitations**  
A - Not for use in atmospheres containing less than 19.5% oxygen.  
B - Not for use in atmospheres immediately dangerous to life or health.  
C - Do not exceed maximum use concentrations established by regulatory standards.  
J - Failure to properly use and maintain this product could result in injury or death.  
M - All approved respirators shall be selected, fitted, used and maintained in accordance with MSHA, OSHA and other applicable regulations.  
N - Never substitute, modify, add or omit parts. Use only exact replacement parts in the configuration as specified by the manufacturer.  
O - Refer to user's instructions and/or maintenance manuals for information on use and maintenance of these respirators.  
P - NIOSH does not evaluate respirators for use as surgical masks.

## PEAKFIT® FEATURES

- Large, contoured design facilitates breathing – reducing worker fatigue and promoting compliance.
- Molded nose bridge, with no metal nosepiece – no pinching required to achieve a “peak fit”.
- Internal nose cushion, made with a soft, closed-cell foam, ensures a safe, snug fit.
- Extra soft, polypropylene inner lining provides superior comfort – increasing worker compliance.
- Integrated, one-piece head strap is more durable than conventional, stapled versions.
- Latex-free, cloth head strap is cooler and more comfortable than traditional, rubber versions.
- Adjustable head strap buckle allows for a custom fit.
- Available with an exhalation vent that reduces hot air buildup – making breathing even easier.
