

FiberPRO® Foam Control Liquid Defoamer

Liquid Defoamer

This highly concentrated product quickly penetrates and knocks down foam to eliminate problems associated with recovery tank foaming.

Features

- Fast acting - Breaks foam on contact.
- Saves time - Eliminates downtime and wasted effort in dumping recovery tanks.
- Versatile - Has many uses and can be used anywhere foaming is a problem.

Available In

4 - 1 Gal. Bottles Item #40304-00

55 Gal. Drum Item #40355-00

Directions for Use

Recommended for use in recovery tanks of extraction machines or automatic scrubbers where foaming might be a problem. Shake or mix container well before using.

EXTRACTORS OR AUTOMATIC SCRUBBERS: Initially place 1 oz. of defoamer per gallon capacity of the pick up tank (8 mL/L) 1:128. If carpet is full of shampoo from previous cleanings, more defoamer may be needed.

SEWAGE SYSTEMS OR WATER PLANTS: Add defoamer, wait a few minutes for it to disperse, continue until suds subside.

Tech Specs

Color	Milky white
